

Cornwall's goal is to recycle 65% by 2035

Cornwall's recycling targets

To achieve this target, we need to reuse and recycle an additional **35,000** tonnes of waste

Resources and Waste Strategy

2025-2045

Resources & Waste Strategy Framework: Our 5 Key Principles

1

Follow the Waste Hierarchy to improve, plan and develop services

PREVENTION
REUSE REPAIR
RECYCLING
RECOVERY
DISPOSAL

2

Meet government targets - 65% recycling by 2035; reducing residual waste per person by 2042.

3

Deliver Value for Money – Efficient, community-appropriate services.

4

Reduce Carbon Emissions – Support carbon neutrality.

5

Empower Communities – Engagement and education.

Over **500 tonnes** diverted from waste so far!

New legislation

New government rules mean we must change our service to help reach recycling and climate targets

2025

Extended Producer Responsibility

Manufacturers will be responsible for their products from start to finish – including how they are disposed of.

2027

Deposit Return Scheme

Introducing a refundable deposit on drinks containers.

2026/2027

Simpler Recycling

All homes and businesses will be able to recycle the same core set of materials.
